Good morning,

Just wanted to follow up to see if you all had any guidance on the questions below.

Thanks,

Nichole

Subject: RE: Question Re: Region 6 OCS permit/ CATEX form

Good morning,

Can you all assist in answering the questions to Sen. Cruz.

1. I understand from your last response that an operator can't obtain coverage for a new facility during this administrative continuance, but what about changes to their existing coverage?
2. I understand that operators submit Notices of Intent (NOI) to obtain coverage under a NPDES GP, and the NOIs include specific information such as vessel names and well locations. I also understand that sometimes this information needs to be changed before or even after an operation occurs. Will operators be able to alter their previously-approved NOIs during the administrative continuance, such as if they need to alter the rig, well site location, or discharge type?

Thanks,

Nichole
